Corporate Trainings 2025

theorientaldialogue.com

Our Story

The Oriental Dialogue was founded in 2012 when we started conducting Business Chinese workshops. Since then we have conducted over 10,000 hours of classes and trainings. As we started teaching more students, we developed a copyrighted curriculum for teaching the languages.

In 2020, we expanded our capabilities to include Japanese and Korean as well. Today we are the only institute providing exclusive trainings of these South East Asian languages.

Our students include individual language enthusiasts, corporate employees, and school children. Our trainings prepare our students to apply for scholarships, exchange programs, and homestay programs. These opportunities help them experience the culture first hand and immerse themselves in the language.

Student experiences

Japanese

The Oriental Dialogue has very skilled trainers. I have been learning Japanese here from The Oriental Dialogue and my Sensei is so cool and explaining all Japanese grammar and vocabulary in a very understandable way. We had many listening practices as well. Thank you team. - Madhu (Fujitsu)

Learning Hiragana was an incredible experience. Sayali sensei is very kind and knowledgeable. She was patient, helpful and made learning the Japanese language easier. Not only did she teach us about the language but also enlightened us with their culture. - Eesha

Korean

Very neat and polite way of teaching. Overall experience was excellent, highly recommend 🍷 We had really great experience with Riya ma'am. Thank you ma'am. - Shraddha

I finished my Beginner Course in Korean with Riya 선생님 and really enjoyed it. She is a very sweet teacher and I truly look forward to continuing learning with her :) - Zainab

Meet our Founder

Aditi Kothekar is a passionate language teacher and has dedicated her efforts towards helping students and corporate clients learn Chinese, Japanese and Korean. It all began when Aditi realised that conventional methods of teaching Mandarin made it challenging for students to perfect their pronunciation. As Indians, we are already familiar with a lot of sounds used in the Mandarin language. At TOD we leverage this ability to help simplify the learning process and make learning fun.

Mandarin, Japanese, and Korean are perceived to be difficult languages - We, at TOD are here to shatter these perceptions and help simplify the experience.
