## About us

The Oriental Dialogue is Pune's leading language institute with over 12 years of experience in making language learning simple, joyful, and accessible. We've trained thousands of learners—from children to professionals—in Mandarin Chinese, Japanese, Korean, and more. Over the years, we've received growing requests from preschools across India to introduce global languages to young children.

However, we realized that traditional methods like short sessions by visiting trainers, weren't sustainable or impactful. That's why we created the Preschool Language Explorer Kits: a structured, engaging, and teacher-friendly solution designed especially for ages 3-6.

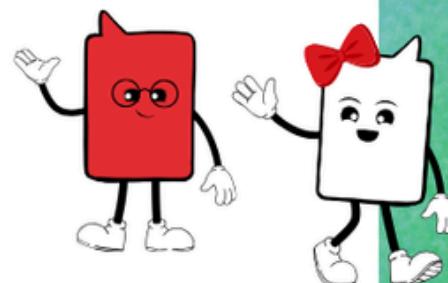

These kits bring language and culture alive through stories, art, stickers, flashcards, games, and our lovable mascots Ori & Dia. With step-by-step plans and full support, we empower your teachers to confidently lead sessions—even without prior language expertise.

Because we believe every child deserves a joyful first step into the world of languages.
